## AF announces uniform changes

Air Force officials announced April 12, uniform policy updates resulting from recent Air Force Uniform Board decisions.

The following policy modifications are effective immediately and will be incorporated into Air Force Instruction 36-2903, Air Force Uniform Dress and Appearance.

The tucking of trousers on utility uniforms into boots will remain optional. When tucked in or bloused, the trouser must be even and draped loosely over the top of the combat boot to present a bloused appearance.

The green fleece watch cap is approved for wear with the all-purpose environmental clothing system, improved rain suit, cold weather parka, sage green fleece and the physical training uniform.

Air Force officials encourage all Airmen to affix name, rank and service designator tapes instead of waiting for the Oct. 1 mandatory wear date. However, officers wanting to wear a watch cap with the sage green fleece must now have their name, rank and service designator tapes affixed to the fleece effective immediately. (Courtesy AFPC)
