512th Airlift Wing, Dover Air Force Base, Del.

## From the commander:

**Col. Raymond A. Kozak**  
512th Airlift Wing Public Affairs

In the aftermath of Hurricane, Super Storm Sandy, I wanted to take a moment and thank everyone for their diligent preparations before the storm, especially the 436th Airlift Wing civil engineers who took care of the base.

We were fortunate here, but let this experience remind us how we all need to be prepared for calls to action, which includes having current contact information on record.

Accountability is important, and the Air Force Personnel and Accountability and Assessment System, found in the AF Portal, is the right tool to collect that information.

I appreciate those who used AFPAAS post Sandy and encourage all Airmen to become familiar with this valuable system. If you and your family have been impacted by the storm and need any type of assistance, please contact your unit.
